### Personal projects

Advice

<https://jeffermarcelino.github.io/advice/>

I created a simple website that gives you a random advice.

Beautysalon

<https://cocky-wescoff-50102a.netlify.app/>

A simple salon landing-page where you can find all the informations that you need

Rocket.Q

<https://github.com/JefferMarcelino/rocket.q-nlw6-discover>

A complete website with front and back-end, here the users can make anonymous questions and the administrator room can see and answer, or delete.
